35 - Identifying Ablatives If this were in Latin, what uses of the ablative would you find in this passage and what question does each answer? *There are nine.*

The day after the battle we retreated with all our forces (*accompaniment*). The roads were deep with mud (*means*) and the men were weary. To make matters worse, aviators attacked our crowded ranks with bombs (*means*). The planes flew low, but with such speed (*manner*) that we could not hit them. At last with a sigh (*manner*) of relief, we entered a forest so thick with trees (*means*) that we were well protected by the branches (*means*). Many miserable refugees with their wives and children (*accompaniment*) sought shelter there.
