

## Very Important!

When we wrote this first book, we were teaching sixth graders at the time.

If you are using it for high schoolers, you may run out of material before the year ends.

In that case, you have some choices:

1. Start Latin II early.
2. Use the Easy Fables that are on this disk. We will be adding to them each week, so email me or call 858.335.6311 to request that new ones be sent to you as they are done.
